

# SCUBANAUTICS PRESENTS KOMODO INDONESIA

TOUR  
LEADER:  
HAMISH

Komodo Island is located in the Flores region of Indonesia. The area is known for its diverse marine life and underwater landscapes, as well as, of course, the famous Komodo Dragon. Underwater, you can expect anything from huge mola mola, dolphins, manta rays, sharks, napoleon wrasse all the way down to the elusive ghost pipefish, pygmy seahorses, frogfish and blue-ringed octopus. The diving, water temperatures and visibility in Komodo is excellent all year round, with different seasons bringing different marine life.
